West Allegheny High School
Early College in High School Academy
Frequently Asked Questions

This FAQ has been developed to answer commonly asked questions about West Allegheny High School's Early College in High School Academy. We hope that this guide will help parents/guardians and students navigate this exciting opportunity to build both their high school and college transcripts during their time at WAHS.

Topics include:

- What is ECIHSA?
- Benefits of taking High School Courses for College Credit
- Registering for College Courses
- Advanced Placement (AP) vs Early College (ECIHSA)
- Tuition
- CCAC Specific Questions
- RMU Specific Questions
- WAHS ECIHSA Courses and Credits

What is ECIHSA?

ECIHSA stands for Early College in High School Academy. West Allegheny currently offers 25 ECIHSA programs in partnership with seven postsecondary institutions, Robert Morris University (RMU), Seton Hill University (SHU), Carlow University (Carlow), Chatham University (Chatham), the Community College of Allegheny County (CCAC), the Community College of Beaver County (CCBC), and Rosedale Technical College (RTC). In 2017, West Allegheny School District established its first partnership with CCAC to provide our high school students access to college credit while taking West Allegheny courses, taught by West Allegheny teachers. This program has since expanded to include our six additional partners—Carlow, Chatham, RMU, SHU, CCBC, and RTC. For the 2026-2027 school year, our concurrent enrollment program includes 69 West Allegheny courses for a total of 244 available college credits. Additionally, we also have 12 dual enrollment programs (1 CCAC, 3 CCBC, 8 RTC) where students attend classes at one of our partnering institutions to earn credits towards an accelerated certificate or associate degree and their high school diploma.

What programs are available through each post-secondary institutions?

WA Early College In High School Academy + Carlow University	Anatomy & Physiology (non-degree track)
WA Early College In High School Academy + Chatham University	Immersive Media Accelerated Bachelor Degree
WA Early College In High School Academy + CCAC	Mechatronics Technology Certificate Health Sciences Accelerated Program
WA Early College In High School Academy + RMU Robert Morris	Business Administration Accelerated Bachelor Degree Criminal Justice & PreLaw Accelerated Bachelor Degree Cybersecurity Accelerated Bachelor Degree Early Childhood Education Accelerated Bachelor Degree Engineering Accelerated Bachelor Degree Special Education Accelerated Bachelor Degree General Studies (non-degree track)
WA Early College In High School Academy + Seton Hill University	Art Education Accelerated Bachelor Degree Exercise Science Accelerated Bachelor Degree Global Studies Accelerated Bachelor Degree Pre-Art Therapy Accelerated Bachelor Degree
WA Early College In High School Academy + CCBC	Aerospace Management Accelerated Associate Degree Air Traffic Controller Accelerated Associate Degree Professional Pilot Accelerated Associate Degree
WA Early College In High School Academy + Rosedale Technical College	Automotive Technology Accelerated Associate Degree Carpentry Technology Accelerated Associate Degree Collision Repair Accelerated Associate Degree Construction Electricity Technology Accelerated Associate Degree Diesel Technology Accelerated Associate Degree Industrial Electricity Technology Accelerated Associate Degree HVAC Technology Accelerated Associate Degree Welding Technology Diploma Program

For more information and program layouts visit the 2026-2027 Program of Studies.

What does concurrent enrollment mean and is it different from dual enrollment?
Concurrent Enrollment is a term used for courses that earn both college and high school credit but are taught in the high school by high school teachers. West Allegheny currently offers 69 concurrent enrollment courses which cover 80 college courses for a total of 244 available college credits.

Dual Enrollment refers to courses taken at a partnering institution, taught by the partnering institution's faculty. These courses also provide students with both college and high school credit. West Allegheny currently offers 12 dual enrollment programs (1 with CCAC, 3 with CCBC, 8 with RTC).

Benefits of taking High School Courses for College Credit

Is there a difference in the course if I take my class for college credit or not?
No. The curriculum content and level of rigor are identical, regardless if a student chooses to take the course for college credit or not.

What are the benefits of taking my eligible courses for college credit?
Research (American Institute for Research, 2020; Atchison et al, 2019; Bell, 2019; College in High School Alliance, n.d.; Gaille, 2018; Pineda, 2022) shows that students who participate in early college courses while in high school are more successful in their post-secondary endeavors. Although West Allegheny does not require students to take eligible courses for college credit, we do recommend it. This allows students to begin building their college transcript while in high school. One of the many advantages to pursuing college credit is that it shows that the student is willing to challenge themselves with college-level coursework while in high school, making them more competitive in the college admissions process. Courses completed through WAHS's ECIHSA program may save a student time and money after high school as they are highly transferrable to other institutions.

Where do credits transfer?
The transferability of college/university credits is reliant on the accepting institution. We have found the website Transferology to be easy to use and reliable. This site will provide information on transferability of college credits to your preferred college/university. WAHS school counselors can also assist families by initiating communication with colleges/universities about transferring credits.

Do students have to continue at the college/university after graduating from West Allegheny?
No. Students who elect to take WA courses for credit while in high school are not committed to continuing their education at those institutions after graduation. The credits offered through our ECIHSA courses are highly transferrable and may help students lessen their required course load at the post-secondary institute of their choice.

Do I still have to take the AP exam if I take an AP course for college credit?
Yes. All students enrolled in AP courses are required to take the AP exam in May. West Allegheny School District pays for all AP exams.

What if the course I am in is not part of my future course of study? Would taking the class for college credit be a waste of money?
Earning college credit for high school courses can save students time and money after high school. Courses that do not directly align with a student's post-secondary plan may be accepted as general elective credit.

Registering for College Courses

When is West Allegheny's deadline for placement testing and registration?
Placement testing is required for AP Computer Science A offered through CCAC. Students who wish to register for this course must have successfully met the placement test requirement before registering or have earned a 3 or higher on the AP Computer Science Principles advanced placement exam. All course registrations will be open until the Friday after Labor Day.

Can I sign up for college credit after the course is over or later in the school year?
Unfortunately, no. All registration forms must be submitted by the deadline. No student will be able to register for a course after the registration window closes.

How do I register for college credit for my eligible courses?
In the beginning of the year, students will receive directions for how to register for their course(s).

WA Early College In High School Academy + Carlow University	Students will complete registration and payment through the university's online portal: https://admissions.carlow.edu/account
WA Early College In High School Academy + chatham University	Students will complete registration through the university's online portal: https://www.chatham.edu/admission-and-aid/next-steps/apply.html (**select Non Degree Seeking application) Payment will be made to West Allegheny SD via check or paypal (additional processing fee).
WA Early College In High School Academy + CCAC	Students must first apply to CCAC (which requires students to submit the parent authorization dual credit form and transcript), complete any required placement test (AP Computer Science A only), and submit the registration form given. More information about CCAC-specific courses can be found in the CCAC Specific Questions section of this document.
WA Early College In High School Academy + RMU Robert Morris	Students will complete registration and payment through the university's online portal: highschool.rmu.edu
WA Early College In High School Academy + Seton Hill University	Students will complete registration and payment through the university's online portal: https://chs.setonhill.edu/highschool_admin/
WA Early College In High School Academy + CCBC	Students will complete registration and payment through the college's online portal: https://ccbc.edu/apply/
WA Early College In High School Academy + Rosedale Technical College	Students must work with their school counselor to set up a time to visit Rosedale for an admissions consultation meeting.

Advanced Placement (AP) vs Early College (ECIHSA)

What is the difference between AP and ECIHSA?
AP is a College Board program that has an end-of-course exam. Most post-secondary institutions award credit for college courses if a student earns a 3, 4, or 5 (set by the college/university) on the corresponding AP exam.

ECIHSA is an agreement between WAHS and our post-secondary partners that awards college credit to students who register with the college/university for their eligible courses. These credits are **not** dependent on AP exam performance. The student's grade is dependent on the coursework that they complete throughout the year as reported by the WAHS teacher or dual enrollment teacher.

Is my college credit dependent on my AP exam score?
No. Earning college credit is only dependent on your registration for the course which takes place in September and earning a passing grade in the course. AP exams are end-of-course exams designed by the College Board to provide students with an opportunity to demonstrate their learning from the school year. Scores from AP exams are released in July. Final grades for ECIHSA courses are submitted to the corresponding post-secondary partner in May.

What is the benefit of taking an AP course for college credit?
The college credit available for all our ECIHSA courses that are also AP is highly transferrable and not dependent on high-stakes end-of-course standardized tests. Likewise, each college/university identifies the minimum score required for students to be awarded course credit because of the corresponding AP exam. Some schools only require a 3, while others may require a higher score. We recommend students taking eligible courses for college credit to remove some stress that may be caused by such exams.

Tuition

What are the tuition costs?
West Allegheny's unique partnership with CCAC, RMU, SHU, Carlow CCBC, and Rosedale includes a significantly discounted tuition rate for all ECIHSA students. The rate for our concurrent enrollment courses for the 2026-27 school year are:

- Carlow –$75/credit
- Chatham –$250/course
- CCAC (concurrent) –$130 per CCAC course (plus a one-time $25 matriculation fee)
- CCAC (dual) –$75/credit
- RMU – $250 per RMU course (no additional cost for 4-credit courses)
- SHU – $235 per SHU course (no additional cost for 4-credit courses)
- CCBC –$410/credit
- Rosedale – $125/credit

Please note that some of our courses cover multiple college courses.

West Allegheny strives to remove barriers and increase access to post-secondary pathways for all students. As such, any student who is in need of financial support may apply by submitting the ECIHSA Financial Support Request form. This includes students in need of a payment plan.

What if I cannot afford the tuition?
Any student who is experiencing financial hardship can request financial support by submitting the ECIHSA Financial Support Request form to request support up to $250/course. To learn more about this, contact Dr. Roche (kroche@westasd.org or 724-695-5259).

Students who receive special education services or free or reduced lunch may receive a full scholarship from the district after completing the ECIHSA Financial Support Request form.

How do I pay for my courses?
Students taking courses through Carlow, CCAC, CCBC, RMU, Rosedale, and SHU will pay the college/university directly unless a ECIHSA Financial Support Request form is submitted and approved. Once submitted, Dr. Roche will work directly with the student to determine the level of financial support provided and/or develop a payment plan for the student. Students taking courses through Chatham will submit payment to WASD.

Will I receive a 1099 for my ECIHSA courses?
Only students who pay the college/university directly will receive a 1099.

When is my tuition payment due?
For our concurrent enrollment courses for the 2026-27 school year the payment due dates are:

- Carlow – October 9 (Fall-A&P I) & February 19 (Spring-A&P II)
- Chatham – January 13
- CCAC (concurrent) – November 5
- RMU – November 16
- SHU – November 16
- CCBC – August 7 (Fall) & December 4 (Spring)
- Rosedale – As determined with the college

CCAC Specific Questions

Why do I need to complete the online CCAC application?
CCAC requires students ALL students who are in a CCAC-aligned course to either take the class for CCAC credit or audit the class. In both instances, a student must apply to CCAC and be assigned a CCAC student ID, generated through the application process.

How long after I complete the CCAC online application will it take to receive an email from CCAC with my student ID?
It could take a few days to receive the email from CCAC. If you do not receive it within a week, please email Dr. Roche (kroche@westasd.org).

What does it mean to audit a course?
Auditing a course means that you are taking a course but not receiving credit for the course. All coursework and requirements remain the same. All students auditing a course must still be registered through the college.

How do I register for the CCAC placement test?

- First, students must apply to CCAC through their website (one time only).
    1. Apply to CCAC
    2. Select *Dual Enrollment student*
    3. *Create an Account* (anticipating enrollment – Fall 202#)
    4. Choose *Current High School Student*
    5. Complete and upload the CCAC Dual Enrollment Parent/Guardian Authorization Form
    6. Email Dr. Roche and Mrs. Heyl that you have completed your application (we will send your transcript)
- You will then receive an email from CCAC with your acceptance and student ID number.
- PRACTICE for your placement test! ☺
    1. CCAC only permits students to take each placement test twice (not twice a year, two times total), so please practice before taking the placement test.

Do I need to take a placement test to enroll in a CCAC course?
CCAC requires placement math placement test to register for college credit for CIT 111 which is one of the courses covered in our AP Computer Science A course. However, if a student has completed a math course for college credit or earned a 3 or higher on the AP Exam for AP Computer Science Principles or an AP math course, they can transfer the credits or submit the exam score to CCAC in place of the placement exam.

How many times can I take each placement test?
Two attempts can be made to pass the placement test.

I took the SATs and/or ACTs; am I exempt from the placement test?
Students who have earned the following scores are exempt from the corresponding placement tests:

Exam	Score	Placement test exemption
SAT Reading and Writing	510 or higher	Reading and English
ACT Verbal	21 or higher	Reading and English
SAT Mathematics	550 or higher	Mathematics
ACT Mathematics	21 or higher	Mathematics

Can I take the CCAC placement test at WAHS during the school day?
Yes, placement tests will be given during class or you may elect to take it at any CCAC campus.

After I complete the placement test, what happens next?
Students' scores will be provided immediately. If you earned a qualifying score, you should submit your registration form to your teacher or the main office. If you did not earn a qualifying score and this was your first attempt at the placement test, you may sign up to take the placement test a second time. However, please be aware that CCAC only permits two attempts on each placement test.

What happens if I do not pass my placement test?
Students who do not earn the necessary score on the corresponding placement test will not be eligible to take the course for CCAC credit. However, they **do not** need to transfer out of the course, and this **does not** mean they are not in the appropriate course at West A.

What if I took a class last year or the year before but do not know my CCAC ID?
If you forgot or lost your CCAC Student ID number you can email Mrs. Heyl (mheyl@westasd.org), and she will look it up for you.

What happens if I take the placement test then change my mind about the credit?
Students have until course registration to decide if they would like to take their course(s) for CCAC credit. Registration forms will be given in class and must be submitted by the deadline. If a student completes the placement test, then decides not to register, there will be no penalty.

I got an email from CCAC about meeting with an Advisor, do I need to schedule this?
No. After completing the placement test you may receive emails from CCAC about meeting with an advisor, registering for classes, making payments, etc. Please disregard these emails. You will receive communication from WAHS or Dr. Roche regarding next steps. If you are unsure if you should follow any CCAC emails, please contact Dr. Roche (kroche@westasd.org) for guidance.

RMU Specific Questions

How do I register & pay for classes?
All course registration and payment will be completed through the RMU in the High School Online Portal. The portal can be accessed through the following website: https://highschool.rmu.edu/. Select "High School Student" to get started.

Important Dates:
- **August 24:** Course registration opens
- **October 16:** Course registration closes
- **November 16:** RMU tuition payment due ($250/course)

Do I get a refund if I decide not to complete a course for college credit?
If you drop your course before Friday, November 16th, you will receive a full refund for your course. Course drops can be initiated through the RMU in the High School Online Portal by selecting the "Add/Drop Request" option. No refunds will be issued after the payment deadline (Nov. 15th). The course fee must be paid to receive RMU-credit for a course.

How do I request a transcript from RMU?
Students can request a transcripts in the RMU in the High School portal.

WAHS ECIHSA Courses and Credits

Am I eligible for college credits for my class(es)?
Students enrolled in West Allegheny courses who meet in the face-to-face setting are eligible for college credit through the corresponding college/university partner if they meet the pre-requisites. West Allegheny has 48 courses eligible for college credit.
