

Wilson Elementary PTA invites you to

Family Fun Night - January 31st

Embark on a quest to learn about the Sun. See yourself in infrared, explore photosynthesis with balloon-popping lasers, and watch as exploding hydrogen and fire tornadoes take you to the surface of the Sun!

This is a first come, first served event. Space will be limited to this free event and we expect it to sell out, so we are asking families to limit the RSVPs to Wilson students, their siblings and parents/guardians only.

SolarQuest presented by the Carnegie Science Center. Doors will open at 6pm. Showtime 6:30-7:15 in the Wilson Elementary Gym. All family members will be treated to a slice a pizza, drink and treat at the conclusion of the show. Please complete the form below and send in with your student by Thursday, January 24th. RSVPs cannot be accepted after this date. 1 form per family please. Questions can be directed to Bjwelte@msn.com or Jennifer_kusic@yahoo.com.
